

## Lincoln 6 Big Ideas Feedback

### Monroe Fields

- Psyched about the sports field, especially with lights. I hope there is some public access – what healthy activities are available to kids at night?

### Other comments:

- Thank you for your presentation. This will build trust in the district & community!
- I appreciate the transparency. No, you need to teach this concept to our Federal Congress. Your work was not easy, thanks for all your due diligence. No questions at this time.
- I appreciate the high level of transparency from the leadership in the district at this time. This trend needs to continue so that we can carry the message to the community regarding the future of the district. I am very interested in future use of the Lincoln Center/CSB facility. I think that change could help the public perception of the district in regards to appropriate use of current facilities.
- I would appreciate continued updates regarding SEBB projections & specific costs of employees beyond state models.
