

7th Grade Supply List (Dekreon, McBride, Rothweiler)

The General Supply List includes several of these same items. Each team has particular needs and preferences. For our team, this is what we would like students to have.

A pencil/supply pouch containing...

- #2 pencils
- Blue or Black pens for final drafts
- Red pens for correcting/editing
- Hand-held eraser(s), pencil top erasers
- Manual pencil sharpener(s)
- Scientific calculator
- Colored pencils
- USB media storage device or disks to save computer documents

In addition...

- Loose leaf writing paper
- 1 ½ to 2 inch binder with front/back pocket and dividers (make sure it's a sturdy one; they tend to get beat up during the year...and please avoid the big ones; they take up too much space on the science shelf...the zipper-style canvas binders – though more expensive – seem to be best because they hold everything safely inside)
- 6 plain 3-pronged folders with pockets
- School calendar/planner with monthly and weekly/daily entries (any type will do as long as there is space to write in monthly activities and daily homework – just a monthly calendar won't work...there isn't enough space)

Optional...

- poster board/tri-fold for projects
- correction tape (no liquid white out please)
- highlighters
- post-it notes

For the classroom (to be used by all)...

2 glue sticks
2 packs of markers
2 boxes of kleenex
Multi-colored construction paper
